

Yearly Plan for Standard 3

Academic Session 2024-2025

Subject: Mathematics

MONTH	W.DAY	NO OF Teaching days	TOPIC	EXAM	Learning Outcomes
APRIL	20	20	Ch1 where to look from Ch-2 Fun with numbers		Ch-1 – 1).students will learn about different views of objects. 2). Student will able to identified 2D shapes. 3). They can identify and view objects from different directions. 4). They can draw different shapes they look from different views. Ch-2- 1). Students will learn about three digit numbers and and there place value face value. 2). They will able to arrange the numbers in ascending order and descending order of numbers. 3). They will be able to represent and numbers in cards of 100's, 10's and 1's.
MAY	Summer vacations				
JUNE	17	14	Ch-3 Give and take		1). Students will learn to addition and subtraction. 2). Student will be able to add two digit and 3 digit numbers using expanded notations. 3) they can compute the simple addition and subtraction

					<p>operation simultaneously.</p> <p>4). They can calculate simple addition in mind. it will improve their mental math.</p> <p>5). They can solve word problems related to addition and subtraction.</p>
JULY	24	15	Ch-4 Long and short Ch-5 Shapes and designs		<p>Ch-4-1).students will learn to measurement of long and short.</p> <p>2). They will learn to tell the long and short things without measuring.</p> <p>3). Students will able to measure the things with hand span foot and ARM and also learn to compare.</p> <p>4) students will be able to know the need of standard tools and concept of the standard tools.</p> <p>Ch-5- 1)..Students will learn to geometry of shapes and designs.</p> <p>2). Students will enable 2 identify the different shapes.</p> <p>3). They can learn the name of objects related to different shapes.</p> <p>4). They will be able to know about the curd ages and state edges of the different things.</p>
AUG	24	23	Ch-6 Fun with given take		<p>1).Student will lean to use of addition and subtraction in general life by doing problem sums.</p> <p>2). Student will understand concept</p>

					<p>of addition and subtraction.</p> <p>3). They will able to check subtraction using addition.</p> <p>4). They will able tole problems of mental maths.</p>
SEP	19	10	Half Yearly and Revision	HALF YEARLY EXAM ( 1to 6)	
OCT	22	22	Ch-7 Time goes on...		<p>1) Student will learn about time and its all measurements.</p> <p>2) Students will come to know that seconds, minutes hours are intellated and leads to formation of days months and years.</p>
NOV	13	13	Ch-8 Who is heavier? Ch-9 how many times?		<p>Ch-8- 1). Children will learn about weight.2).Students able to know heavy and light things.</p> <p>3) They will be able to guess the weight by looking at size.</p> <p>4) They can understand the concept of heavy and light</p> <p>5) They will learn to weigh things with balance and weights.</p> <p>Ch-9- 1). Children will learn about multiplication.</p> <p>2). They will able to write repeated</p>

					<p>addition as a multiplication.</p> <p>3) they can night multiplication using expanded notation.</p> <p>4) they can learn column method of multiplication.</p>
DEC	25	18	<p>Ch- 10 Play with patterns</p> <p>Ch-11 Jugs and mugs</p>		<p>Ch-10 – 1). logical thinking of student will increase.</p> <p>2). Students able to make pattern and designs from straight line and other geometrical shapes.</p> <p>3) they will be able to identify simple symmetrical patterns</p> <p>Ch-11- 1).students will learn about volume and capacity.</p> <p>2). Students will be able to understand that only liquids can be measured by containers of known capacity.</p> <p>3) students will get the idea of half twice four times etc.</p>
JAN	23	23	<p>Ch- 12 Can we share?</p> <p>Ch-13 Smart charts!</p>		<p>Ch-12-1).Students will learn to division.</p> <p>2). Student will be able to learn table UP to 10.</p> <p>3). Students and multiply and divide using one digit number.</p> <p>4). They can understand and solve word problem based on division.</p> <p>Ch-13- 1).Students will learn to collecting data their arrangement and analysis.</p>

					<p>2). They will get knowledge about data.</p> <p>3). They can get knowledge of simple telemarks.</p> <p>4). They will have knowledge about the pictograph using easy symbols.</p>
FEB	24	20	Ch-14 Rupees and paise	ANNUAL EXAM(7 to 14)	<p>1) Students will learn about money and it's terms.</p> <p>2) They can use of numbers and relative find and making currency notes of different domination.</p> <p>3) They can convers rs 2 paisa and vice versa.</p> <p>4) They can at times to make small amount of money by using 34 notes of different denominations in different ways.</p> <p>5) They can understand use of money in day to day buying and selling situations.</p>
MARCH	23	0
